

The California Cooperage 104 features barrier free seating combined with a lounge and a comfortable bucket seat. The barrier free seating is perfect for entertaining and for those who do not want to be restricted in their movement in the spa. This model will fit through any standard doorway so it will work well indoors.

The Original Hot Tub

In 1972, California Cooperage® created the first mass-produced Redwood Hot Tubs for relaxation, romance and fun. First on scene, these "Original Hot Tubs" were the highlight in many California Backyards.

The very spirit lives on today in every California Cooperage® model. Designed for any backyard, California Cooperage® hot tubs combine the mystique of the original redwood tub with the rejuvenating benefits of modern spa technology. The attractive and durable design is classic in its simplicity - embracing the simple pleasures of hydrotherapy and fun.
